Attached Memorandum re: EDIC/IR-27

1. Since copies of the subject memorandum will be distributed to State/OIR and Navy/ONI it was not possible to discuss therein the internal coordination of the CIA contribution. The project has been discussed in some detail with both S/TR () and I/SH () who are responsible for contributing to parts IV-3 and V, respectively. S/TC has already prepared a report (EDIC/IR-26) which corresponds, with some minor additions, to the information required for part VI.

25X1A9a

2. It was determined that while the I/SH and S/TC contributions to EDIC/IR-27 could be prepared in time to meet the deadline suggested in Admiral Delany's letter to Dr. Guthrie, the S/TR contribution would have to await completion of the Navy/ONI analysis.

3. Project Action Memorandum 40,1706 is being prepared by S/PR to cover the CIA contribution to this project and should reach your desk by 30 January.
